

TUAN MIFZAL FAWWAZ BIN TUAN FAUZI

BACHELOR OF COMPUTER SCIENCE (SOFTWARE DEVELOPMENT)

+60 13-502 9337

tuanmifzal71@gmail.com

Kampung Simpang Tiga Gelang Mas, 17100 Pasir Mas, Kelantan

OBJECTIVE

Motivated and detail-oriented Computer Science (Software Development) student with knowledge of web application development, database management, RESTful APIs, and machine learning. Seeking an internship opportunity to apply technical and problem-solving skills in a professional environment while gaining hands-on software development experience. Eager to contribute to a collaborative team and continuously expand technical expertise. Available for internship from 20 September 2026 to 19 March 2027.

EDUCATIONAL BACKGROUND

Bachelor of Computer Science (Software Development) with Honours 2023-2027

Universiti Sultan Zainal Abidin (UniSZA) | CGPA: 3.52

- Relevant Coursework: Software Engineering, Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Systems, Web Development, Advanced Database, Service-Oriented Architecture (SOA), Software Testing & Quality Assurance, Artificial Intelligence, Distributed Systems, Data Mining

Matriculation Programme - Science Stream 2021-2023

Kolej Matrikulasi Pahang | CGPA: 3.00

Sijil Pelajaran Malaysia (SPM) 2016-2020

Sekolah Menengah Kebangsaan Kubang Bemban

PROJECT INVOLVEMENT

Intelligent Car Recommendation and Pricing System Using Machine Learning (Final Year Project) 2026

Technologies: PHP, MySQL, Python, Machine Learning

- Developed a web-based intelligent car recommendation and pricing prediction system using machine learning.
- Built separate modules for buyers, sellers, and administrators to streamline platform operations.
- Implemented machine learning models to recommend suitable vehicles and estimate fair market prices.
- Integrated PHP and MySQL to manage user data, vehicle listings, and transaction records.
- Improved user decision-making through data-driven recommendations and automated price predictions.

Food Delivery System (Service-Oriented Architecture Course Project) 2026

Technologies: PHP, MySQL, REST API, HTML, CSS, Bootstrap, XAMPP

- Developed a service-oriented food delivery platform using RESTful web service architecture.
- Designed modules for customers, restaurants, and delivery personnel to manage order workflows.
- Implemented REST APIs to enable real-time communication between multiple system components.
- Built responsive user interfaces using Bootstrap, HTML, and CSS for improved user experience.
- Managed backend data processing and database integration using PHP and MySQL.

Restaurant Management System (Software Development Workshop)

2025

Technologies: PHP, MySQL, HTML, CSS, Bootstrap, JavaScript, XAMPP

- Developed a web-based restaurant management system to digitalize daily operational processes.
- Implemented modules for menu management, order processing, inventory tracking, and payment handling.
- Created dedicated dashboards for administrators, waiters, and chefs with role-based access.
- Enabled real-time order tracking to improve communication between restaurant staff.
- Designed and managed relational databases using PHP and MySQL.

Used Car Sales Management System (SPM Personal Project)

2020

Technologies: HTML, CSS, PHP, MySQL

- Developed a web-based used car sales management system as a personal SPM project.
- Implemented CRUD (Create, Read, Update, Delete) functionalities to manage vehicle listings and customer information efficiently.
- Designed user-friendly interfaces using HTML and CSS for improved system usability.
- Built database-driven features with PHP and MySQL to strengthen backend development skills.
- Applied fundamental web development concepts and relational database management principles.

ACHIEVEMENT

- **Dean's List Award**, Bachelor of Computer Science (Software Development) with Honours, UniSA

2025

SKILLS

Technical Skills:

- **Programming Languages:** PHP, Java, Python, JavaScript, HTML, SQL, CSS
- **Frameworks & Technologies:** Bootstrap, REST API, RESTful Web Services, Machine Learning
- **Software & Tools:** Microsoft Office Suite (Word, Excel, PowerPoint), XAMPP

Core Competencies:

- Full-Stack Web Development, Backend & Frontend Development, Database Management, API Integration, Software Testing & Debugging, System Analysis & Design, SDLC Fundamentals, Requirements Analysis

Soft Skills:

- Analytical Thinking, Problem Solving, Communication, Teamwork, Time Management, Adaptability, Attention to Detail, Fast Learner, Critical Thinking

Language Proficiency:

- Malay (Native), English (Intermediate)
